**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with MARYANNE ARNOLDO on 24 June 2009 and 26 June 2009.

The application has been amended as follows:

Claims 28-57 have been cancelled.

In claim 1, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 1, line 4, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 1, the phrase 'wherein the analysis does not involve an extraction step comprising evaporation and redissolving the extracted thyroid hormone, and the analysis is done in less than an hour' has been deleted.

In claim 3, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 27, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 58, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 58, line 5, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 60, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 60, lines 4-5, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 60, line 7, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 60, the phrase 'wherein the analysis does not involve an extraction step comprising evaporation and redissolving the extracted thyroid hormone, and the analysis is done in less than an hour' has been deleted.

In claim 62, line 2, the instance where it reads 'or suspected of comprising' has been deleted.

In claim 62, the phrase 'wherein the analysis does not involve an extraction step comprising evaporation and redissolving the extracted thyroid hormone, and the analysis is done in less than an hour' has been deleted.

In claim 64, line 1, the instance where it reads 'or 28' has been deleted.

In claim 65, line 1, the instance where it reads 'or 28' has been deleted.

2. The following is an examiner's statement of reasons for allowance: None of the cited prior art of record teaches a method, a system, or a kit of a sample containing one

or more thyroid hormones, where the sample is deproteinated, separated and analyzed in a mass spectrometer.

3. The closest prior art as cited in the prior office action to DeBrabandere discloses a method of determination of thyroxine in serum. While this method discloses determining thyroxine in a sample, the reference does not fairly teach or suggest a method of extraction outside of the online liquid extraction of the sample. Furthermore, DeBrabandere neither teaches nor suggests a system nor a kit that is disclosed as being used for deproteinating, separating and analyzing a sample in a mass spectrometer. The system that is claimed in the instant application for deproteinating samples and internal standards, and analyzing the hormones is not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTINE T. MUI whose telephone number is (571)270-3243. The examiner can normally be reached on Monday-Thursday 7-5.
